PROFESSIONAL SUMMARY

Third-year Computer Science and Artificial Intelligence student with a strong foundation in frontend development using HTML, CSS, Bootstrap, and JavaScript. Experienced in building full-stack web applications with PHP and MySQL through team projects, and multiple personal frontend projects built independently. Currently expanding skills in TypeScript and Angular, with a strong interest in freelance and company frontend development work.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, Bootstrap, React

Currently Learning: TypeScript, Angular

Backend & Databases: PHP, MySQL, Node.js

Programming Languages: C, C++, Java, Python (Intermediate)

Developer Tools: Git, GitHub, VS Code

CERTIFICATIONS

- Schneider Electric — Training Certificate in Recycling and Reuse of Used Batteries

FRONTEND PROJECTS

Freelance Platform — Full-Stack Web Application (Team Project)

Technologies: HTML5 • CSS3 • Bootstrap • JavaScript • PHP • MySQL • XAMPP

- Developed a full-stack freelance platform supporting three user roles: Freelancer, Client, and Admin.
- Enabled freelancers to showcase their work, create job/service listings, set prices and deadlines, and accept client requests.
- Built admin tools to manage disputes, add or remove users, and apply account penalties, including warnings, temporary suspensions, and permanent bans.
- Implemented a responsive frontend that adapts across different screen sizes.

Library Management System (Team Project)

Technologies: HTML5 • CSS3 • JavaScript • PHP • MySQL

- Developed a system supporting book borrowing, returning, and purchasing from both customer and employee perspectives.
- Built separate customer and employee views/interfaces with distinct roles and permissions.

Nike Product Landing Page (Personal Project)

Technologies: HTML5 • CSS3 • Bootstrap • JavaScript

- Built a responsive Nike shoes landing page with a hero carousel, featured products, and latest products sections.
- Implemented interactive JavaScript features, including carousel navigation, product size selection, and product image switching.

Restaurant Website — House Craft Burger (Personal Project)

Technologies: HTML5 • CSS3

- Designed and built a restaurant website for a burger brand, focusing on clean layout and menu presentation.

Freelancer Portfolio Website (Personal Project)

Technologies: HTML5 • CSS3

- Developed a personal portfolio/introduction website for a freelancer, showcasing services and contact information.

Gym Landing Page (Personal Project)

Technologies: HTML5 • CSS3

- Created a gym website featuring a structured landing page with class and membership information.

TRAINING

Front-End Development Course — Semicode Academy — Ongoing

- Building practical front-end development skills through structured, hands-on coursework.

EDUCATION

Capital University (Formerly Helwan National University) — Sep 2024 – 2028

Bachelor of Science in Computer Science and Artificial Intelligence (Year 3)
